EDUCATION

Bachelor of Engineering in Computer Science And Engineering　　2021 – 2025
Easwari Engineering College, Ramapuram　　Chennai, India
CGPA - 7.66

Sri Krishnaswamy Matric Hr Sec School, K K Nagar　　2020 – 2021
Higher Secondary - 71.35%　　Chennai, India

COURSES

Privacy and Security in Online Social Media - 54%
NPTEL

Cloud Computing - 67%
NPTEL

CERTIFICATES

Web Development Bootcamp 🔗
Web Development Bootcamp – Udemy
- Completed comprehensive training covering HTML, CSS, JavaScript, and responsive web design.
- Built real-world projects to apply concepts in frontend and basic backend development.

Django 4 and Python Full-Stack Developer Masterclass
Django 4 & Python Full-Stack Developer Masterclass – Udemy
- Learned full-stack web development using Django, Python, HTML, CSS, and JavaScript.
- Built dynamic web applications with authentication, CRUD operations, and database integration.

UI/UX 🔗
Completed UI/UX for Beginners Course in Great Learning.
- Learned core principles of user interface and user experience design, including design thinking and usability.
- Gained hands-on experience with wireframing, prototyping, and tools like Figma.

Government Typewriting Certification
English (Higher/Lower) - passed First Class
Tamil (Higher/Lower) - passed First Class

My SQL Basics 🔗
Completed My SQL course in Great Learning.
- Completed foundational training in SQL including SELECT, INSERT, UPDATE, DELETE, and JOIN operations.
- Gained hands-on experience in writing queries using MySQL/SQL Server for data handling and analysis.

Government Certificate in Computer on Office Automation
Directorate of Technical Education, Tamil Nadu.
- Trained in MS Office tools, email handling, document formatting, and basic computer operations.

SKILLS

- HTML, CSS, JavaScript
- React
- UI/UX Design
- PYTHON
- Django
- Problem Solving
- Web Development

PROFESSIONAL EXPERIENCE

Web Development and Designing in Oasis Infobyte   08/2023 – 09/2023
Successful Completion of 1 month intership in Web Development and Designing at   Chennai
OASIS INFOBYTE.
Projects Completed:
Landing Page Development:
- Designed and developed a responsive landing page using HTML, CSS, and JavaScript.
- Ensured compatibility across devices and browsers, focusing on user experience and modern UI principles.

Portfolio Website:
- Created a personal portfolio to showcase skills and projects. Integrated a responsive layout, interactive navigation, and optimized design for mobile and desktop users.

Temperature Converter Application:
- Built a dynamic web application that converts temperature units (Celsius, Fahrenheit, and Kelvin) using JavaScript.
- Focused on functionality, user input validation, and intuitive design.

PROJECT

AI/ML Based Solution For Detection Of Face And Voice Based Deep Fake Videos
- Designed and implemented an AI/ML solution to detect deepfake videos using facial and voice analysis.
- Python, TensorFlow, PyTorch, and deep learning frameworks for audio-visual forensics.
- Leveraged convolutional neural networks (CNNs) for facial feature extraction and recurrent neural networks (RNNs) for voice pattern analysis.
- Deployed in fraud prevention, social media moderation.

Crypto Market Web Application
- Tech Stack: React, Chart.js, REST APIs
- Developed a responsive web application displaying real-time cryptocurrency data.
- Integrated interactive graphs showing price trends, 24-hour high and low, current prices, and market capitalization.
- Ensured seamless API integration for live market data updates.
- Implemented a search feature allowing users to view detailed charts of individual crypto currencies.
